

OAKPARK CLEANING

OAKPARK CLEANING SERVICES was established in 2011 as a trading division of Oakpark Security Systems Ltd. The aim of the business was to provide an intelligent outsourced cleaning and facilities management service that could compliment the award-winning security solutions offered to our customers.

Our team provide tailored cleaning solutions to a diverse range of customers across a range of market sectors. We are proud to work with customers in industries such as retail, hospitality, education, professional services and logistics.

We offer a management team with combined forty years' experience of the commercial cleaning environment.

OFFICE CLEANING

Our office cleaning solutions will ensure that your business premises are maintained to highest professional standards. We understand that a clean and fresh workplace is important to employee productivity and our team will design a solution that ensures your work environment has the highest standards of cleanliness.

Oakpark Cleaning can offer the latest technology to support our cleaning operatives and customers, including time and task management software to generate an audit trail for our customers.

WINDOWS & GLASS CLEANING

Oakpark Cleaning can take responsibility for the cleaning of all glass in your property, both external and internal.

We can utilise cleaning methods including cradles, abseiling, cherry pickers, traditional ladders, safety harnesses and a water-fed pole system. We guarantee excellent results from every clean and the highest standards of employee safety when working on your premises.

Our team use the latest Pure Water technology to ensure that your windows and glass remain streak-free.

CARPET & FLOOR CLEANING

Our team are able to offer our customers a full carpet cleaning service, either as part of an ongoing contract or as an ad hoc service. The cleaning of floors and carpets is essential to a hygienic workplace environment and Oakpark Cleaning can design a solution to ensure that your floors and carpets are maintained to the highest standard.

Oakpark Cleaning utilise a number of the latest technologies when cleaning carpets, including both steam and dry cleaning technology. Our Texatherm™ system offers a quick and efficient method of commercial carpet cleaning, and leaves your carpets dry in thirty minutes.

ONE-OFF CLEANS / END OF TENANCY CLEANS

Oakpark Cleaning Services has a team of experienced mobile cleaners who can be deployed at short notice to provide a one-off clean for customers in sectors such as construction, education, hospitality or events.

We also provide End of Tenancy Cleans for landlords and property owners that is designed to be rapid and efficient. We recognise that changeover of tenants can be a swift process but that the highest standards must be retained at all times.

LANDSCAPING & GROUNDS MAINTENANCE

Our team can assume responsibility for making the grounds of your business look professional and tidy, creating the perfect first impression for your workplace visitors. We specialise in creating attractive and functional outdoor spaces that reflect the culture of your business workplace.

Oakpark Cleaning Services can offer grass cutting and mowing to all forms of grass and lawn areas, hedge trimming, weed control, gritting and snow clearance.

TOTAL FACILITIES MANAGEMENT

Oakpark Cleaning Services can offer a total facilities management solution for your commercial premises.

Our team will take responsibility for all non-core business processes and allow you to concentrate on your key business activities. Our intelligent approach to facilities management allows Oakpark Cleaning Services to deliver a range of outsourced services including cleaning, security, landscaping and maintenance, all managed from a single point of contact.
